*RES CHECKING
Search report
Sent to FO N*

I enclose a copy of the European search report together with the annex thereto listing corresponding publications and a copy of each of two cited documents.

Both citations are listed as technological background art only indicating that the search examiner does not consider them to prejudice the novelty or inventive step of any of the claims. I have not studied the documents in detail although I believe we have seen them already on at least one other application.

As usual, I should be grateful for your comments on the citations and also for details of any other prior art which might have been cited on the corresponding US application.

The application has not yet been published and publication of the search report will now be simultaneous with that of the application. The term for payment of the examination fee will expire 6 months after publication. *0488488 6-3-92*

I look forward to receiving your instructions in that respect in due course.

Yours sincerely

P.A.D. Lloyd
